

INFORMATION REGARDING APPEARANCE BEFORE THE ZONING BOARD OF APPEALS

1/31/18

It is the Town's belief that a presentation in February would be premature because we have yet to meet with NYSDEC, and have yet to receive a formal commitment from them on the PCB's recommendations. We are meeting with NYSDEC on January 31, 2018 and we will determine the Town's action plan once we know the extent to which NYSDEC will seek to implement and enforce the Town's recommendations.

The Town will seek full compliance with all of its recommendations. The action plan that we will put into place depends upon NYSDEC's and WM's willingness to cooperate. This will be developing over the next few days.

We will continue to keep the residents updated as this unfolds, and our Special Counsel has committed to working closely with the citizens' attorney through every phase of this process, in real time and without delay.

If you would like current information on the Town's actions regarding issues with Waste Management's High Acres facility, please check our website at www.perinton.org/highacres-landfill . Thank you.
