

# AYRAULT ROAD SANITARY SEWER IMPROVEMENTS

Newsletter #1

May 2023

## Project Update

The Town will soon begin work installing a new 15" gravity sewer between Ayrault Rd and Pebble Hill Rd within the RS&E Trail corridor. This will allow the elimination of a high maintenance 50 year old pump station and 4,000 LF of aging forcemain. This project will significantly improve resiliency of the Perinton Consolidated Sewer District infrastructure.

The project will require closure of a portion of the trail between the Bradford Hill Access Point and Ayrault Rd. A signed trail detour will be maintained for both pedestrian and bicyclists for the duration of the project.

**Randsco Pipeline** is the Town's contractor performing the sewer work. Fairport Electric will soon begin securing poles along the RS&E trail and adjusting power lines to permit Randsco Pipeline's to work safely near their facilities without causing service impacts. Randsco's tentative construction schedule is as follows:

- Award Contract: **March 2023 (Completed)**
- Sign RS&E Trail Detour and Close Trail: **May 15, 2023**
- Fairport Electric Improvements: **Early May to Mid-Jun 2023**
- Tree Removals: **Mid May to Mid Jun 2023**
- Sanitary Sewer Installation (N Connection Point to Pebble Hill Trail Crossing): **Late Jun - Aug 2023**
- Bore New Sewer Under Pebble Hill Rd: **Aug 2023**
- Sanitary Sewer Installation (Pebble Hill Trail Crossing to Ayrault Rd): **Aug 2023 to Oct 2023**
- Decommission Pump Station: **Nov 2023**
- Trail Restoration: **Late Fall 2023**
- Remove Detour Signage and Open RS&E Trail: **Late Fall 2023**
- Replacement Tree Plantings: **Fall 2023 or Spring 2024**

*Our full time consultant inspector from MRB Group is **Dave Smith**. Dave will be on site at all times and available to address any concerns during construction. His contact info is provided below. You may also contact your Town representatives **Perry Stolt** or **Rob Kozarits** at the below info should you have any questions.*

*Future newsletters with an updated schedule will be provided as major project milestones are reached.*

**Thank you for your cooperation and patience as we construct this important sewer project.**
