

# Town of Perinton Building & Codes

## PINES OF PERINTON CONSTRUCTION UPDATE

Perinton Building & Codes is regularly on-site at the Pines of Perinton and readily available to address concerns that involve the Perinton Town Code and New York State Property Maintenance Code.

### KEY POINTS:

- 1. Monthly Meetings with the Construction Team:**  
Moving forward, the Town will hold monthly meetings with the construction team overseeing the Pines of Perinton renovation project. This ongoing engagement is aimed at enhancing communication, addressing resident concerns, and ensuring our community remains well-informed about the project's progress.
- 2. Inspection of Hospitality Units:**  
Perinton Building & Codes will inspect each hospitality unit before it is turned over to another resident. This proactive measure is designed to ensure the safety and health of residents and swiftly address any potential issues.
- 3. Reporting Issues and Maintenance:**  
Residents are strongly encouraged to promptly report any issues encountered during the renovation process to the maintenance team at the Pines of Perinton. Perinton Building & Codes Department is also readily available to address concerns involving health or safety issues.

### CONSTRUCTION PROGRESS:

The renovation of each unit includes a tear out and replacement of the kitchen and bathroom, new windows, flooring, painting, and plumbing line replacement, among other improvements. These units are inspected by Perinton Building and Codes to ensure code compliance.

### MOVING ASSISTANCE FROM HOUSING TO HOMES:

Housing to Homes, the Resident Logistics Coordinator for the project, has aided over 40 households with packing and moving assistance. After several weeks in the hospitality units, residents return to a newly renovated apartment.
